

CROWN

C-G/C-D

13,000-20,000 lb Capacity

IC Pneumatic Tire

Rugged Confidence A Winning Combination

Crown 13,000 to 20,000 pound pneumatic forklifts merge rugged strength and durability with the comfort, control and confidence inspired by their operator-focused compartments.

Versatility

With a range of capacities and a variety of accessories and attachments, Crown pneumatic forklifts are up to most any task.

Control

Improve satisfaction and overall productivity by providing the operator with precise control close at hand.

Performance

A rugged powertrain and proven cooling system provide the performance you need to excel under pressure.

Support

Rely on our experienced dealer network and proven maintenance and service approach to maximize uptime and extend truck life.

Versatility by Design

Crown forklifts can meet the needs of most any rugged outdoor application—steel, pipe and lumber. Regardless of the load or terrain, these tough forklifts are the right tools for the job.

Control Central

Crown 13,000 to 20,000 pound pneumatic forklifts deliver confidence, visibility and precise control to the operator.

One of the most spacious operator compartments in the industry offers a standard suspension seat and all hydraulic controls well within reach.

In addition, Crown's optional cab combines visibility, protection and comfort with optional air conditioning, heat, panoramic mirror, fan and rearview camera.

All diesel cabs offer power tilting for easy serviceability.

Ergonomic Operator Environment

- Easily adjustable to fit operators of various sizes
- Wide open leg room
- Tilt steering column
- Deluxe suspension seat with high visibility seat belt
- Operator sensing system
- Park brake alarm
- Neutral shift (return to neutral required when operator leaves seat)

Integrated 5" LCD Instrument Panel

- Fuel level gauge (diesel)
- Engine oil pressure
- Engine coolant
- Engine rpm
- Speedometer
- Transmission temperature
- Transmission neutral
- Battery charging system
- Water in fuel (diesel)

Durable Performance

Heavy-duty IC forklifts need the endurance to last during long shifts in challenging conditions and the key to long-term performance begins with the powertrain.

That's why Crown offers some of the most durable, **industrial engines and transmissions available** and protects them with innovative, **high-capacity cooling systems**.

The diesel model features a **3-speed transmission** that allows the operator to shift between automatic and manual with the touch of a button. Automatic mode electronically controls truck travel speed based on engine load and RPM, which frees the operator to focus on load handling.

LPG models feature a standard **2-speed transmission** with an autoshift controller, which helps extend transmission and tire life by softening directional changes.

The **industrial dual radiator** provides separate cooling for the engine and transmission, reducing fluid temperatures to protect and extend powertrain life.

Stopping power is provided by fully enclosed, **oil-cooled disc brakes** that seal out environmental contamination.

PSI 4.3 Liter LPG Engine*:

- 6 cylinder engine with balancing shaft for smooth operation
- Horsepower - 94 hp @ 2,500 rpm
- Maximum torque - 209 ft-lb @ 1,800 rpm
- Non-interference valvetrain engine
- Cast iron cylinder heads and block
- Roller valve lifters and rocker arms reduce friction
- 1-piece Viton rear main seal for durability
- Dual element air cleaner
- Exceeds EPA Tier 3 LPG exhaust emission standards

**Available on 13,000 and 15,000 capacities only*

Doosan 3.4 Liter Diesel Engine:

- 4 cylinder inline intercooled turbo
- No diesel particulate filter required
- Horsepower - 108 hp @ 2,300 rpm
- Maximum torque - 277 ft-lb @ 1,600 rpm
- Timing-gear driven valve train (no belt replacement)
- 3 operator selectable performance modes (standard, economy and drive)
- Dual element air cleaner
- Exceeds Tier 4 diesel emission standards

OIL-COOLED DISC BRAKES

60 month Warranty ▶ **10,000 hrs**

Crown's Proven Support Network

Crown support begins long before this truck leaves the factory. Our integrated approach to service provides the best user experience to our customers—before, during and after the sale.

Safety and Training

Our comprehensive training programs for operators, supervisors, technicians—and even pedestrians—can help support your efforts to provide a safe and productive work environment. Our DP TrainSafe® Train-the-Trainer program offered locally can provide your organization with tools to efficiently train new operators using your own resources. At our Regional Training Centers, DP Service Technician Training goes above and beyond traditional classroom training, allowing participants to work on lift trucks with instructor supervision.

Forklift Maintenance and Repair

Crown's Integrity Service System® keeps your forklifts running—regardless of brand. From time and material to complete maintenance, our Integrity Service System offers a variety of service plans to suit your needs in the most efficient and cost-effective way. Our well-stocked, GPS-dispatched service vans ensure your service technician arrives with the right part at the right time.

Fleet Management

InfoLink® Fleet and Operator Management puts the power of accurate, on-demand business metrics at your fingertips. When robust data drives confident decisions, your organization can achieve improved results in safety and compliance, higher productivity, lower costs and optimized operations. InfoLink Data Services can help create a solid foundation to help you achieve your goals and provide data integration and other consultative services to continue your journey.

Rugged Confidence.
