

PR SERIES

THE ULTIMATE PALLET MOVER

Moving heavy loads over long distances is demanding on pallet trucks and operators. The PR 4500 Series answers your productivity challenges throughout your facility.

As a dedicated pallet mover, the PR 4500 Series significantly **improves throughput** and provides a **higher return on your investment**.

Discover why the PR 4500 Series is the ultimate pallet mover:

Rugged and Powerful

A Crown-designed and built drive unit has a powerful AC drive motor, robust in-line spur gears, and is top and bottom-mounted to provide power and durability not found with competitor drive units.

Built to Endure

The industry's strongest and most durable under-carriage is backed by a 5-year guarantee. A steel power unit door provides an extra measure of protection to internal components.

Exceptional Ergonomics

Power steering, a suspended floorboard, and premium padding reduce operator fatigue, increasing productivity. The spacious floor allows for flexible foot positioning.

Maximize Productivity

Crown's exclusive Access 1 2 3[®] technology optimizes control and performance. The Access 1 2 3 display facilitates advanced diagnostics and programming.

Safe and Secure

The PR 4500's compartment features five points of contact, separate brake and travel sensor pedals, and an entry-bar safety switch to enhance operator security and confidence.

Move loads **efficiently** and **confidently**.
